Examiner: Lee

Filed : Feb. 6, 2004

Confirmation No. 8289

Group: 3673

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

SUPPLEMENTAL RESPONSE TO OFFICE ACTION

Dear Sir:

This Supplemental Response is submitted to correct two minor errors in the Remarks section of previously-submitted Response To Office Action dated November 27, 2006.

In particular, Applicants commented on page 4, fourth paragraph that that the examiner had misinterpreted Fig. 3 of the '126 patent.

Following that, Applicants stated that "...the examiner should note that Fig. 2 of the '126 patent is a sectional view taken along line 2-2 in Fig. 1 such that the combustion chamber opening H_c is located on the left side of Fig. 1". This sentence is incorrect in that it should have stated that the combustion

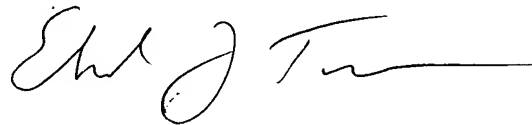

USSN 10/773,704

chamber opening H_c is located on the left side of Fig. 2, not Fig. 1.

Similarly, the next sentence should have indicated that Fig. 3 is a sectional view taken along line 3-3 in Fig. 1 such that the combustion chamber opening H_c is located at the left side of Fig. 3, not Fig. 1.

Entry and favorable consideration of this Supplemental Response is requested.

Respectfully submitted,

Edward J. Timmer
Reg. No. 27 402
